## **Kentucky's Public Postsecondary Institutions' Tuition Increase**

At the May 20, 2013, Committee on Equal Opportunities meeting, Council staff provided an update that highlighted the public institutions' proposed tuition increases for fall 2013.

CEO student member, Mr. CJ Ryan, stated that he would forward a response from the students regarding the increase in tuition. Mr. Ryan indicated that the students expressed concern that their parents/guardians would not be able to finance their education if the price increased beyond three to four percent.

The attached letter (Attachment B) was forwarded to the members of CPE at their June 2013 meeting held at Northern Kentucky University.
